A. Capture Screen ผลลัพธ์ GitHub Actions ใน Steps 7

The screenshot shows the GitHub Actions interface for a repository named 'NETCHANOK61 / sdte_lab9'. The workflow 'first commit' is displayed, which triggers on a push to the 'main' branch. The workflow consists of a single step named 'Build docker image from source', which is currently in a 'Success' state. The step's duration is 1m 2s. The workflow was triggered by a push from user 'NETCHANOK61' at 1 minute ago. The 'build.yml' file content is visible, showing the step 'Build docker image from so... 4ls'.

B. Capture Screen ผลลัพธ์ ECS Tasks State ใน Step 9

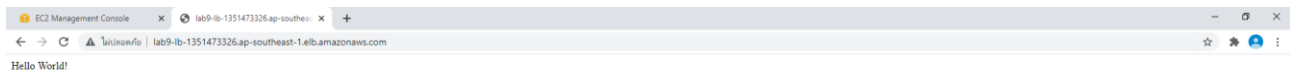

The screenshot shows the AWS Management Console for the 'lab9-cluster' service. The 'Service : lab9-service' page is displayed, showing the following details:

- Cluster: lab9_cluster
- Status: ACTIVE
- Task definition: lab9-task-4
- Service type: REPLICAS
- Launch type: FARGATE
- Service role: AWSServiceRoleForECS
- Created By: iam:aws-iam:427373549576.root

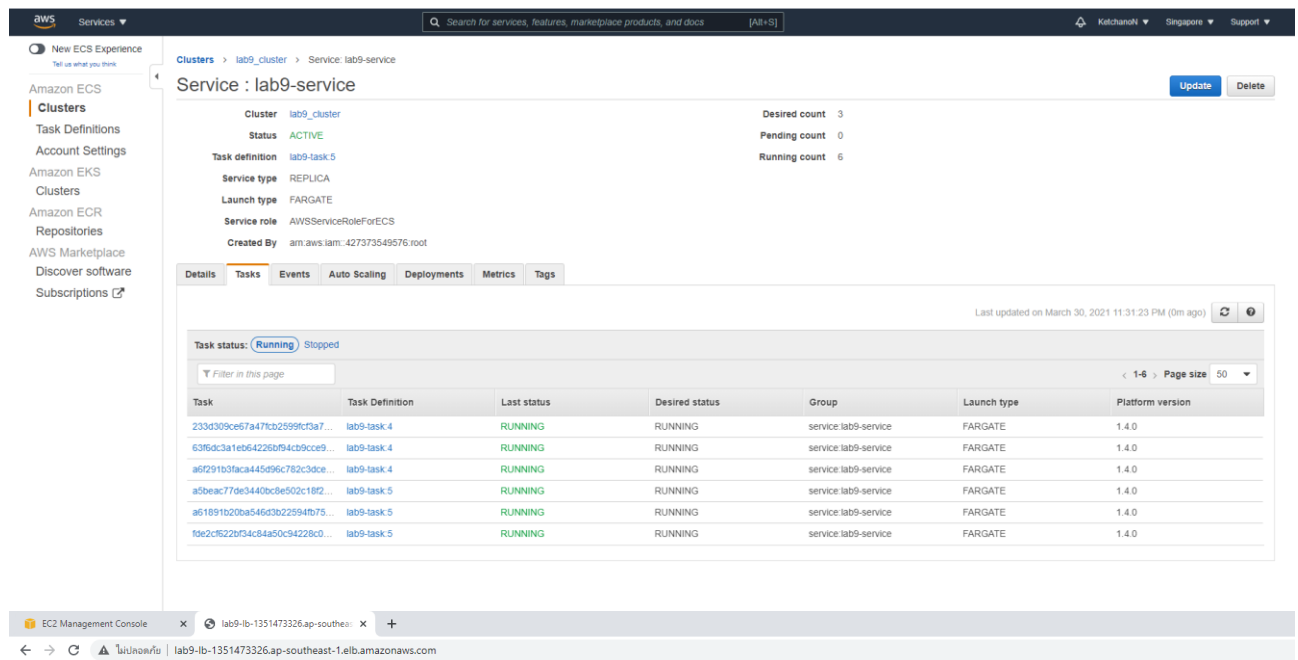

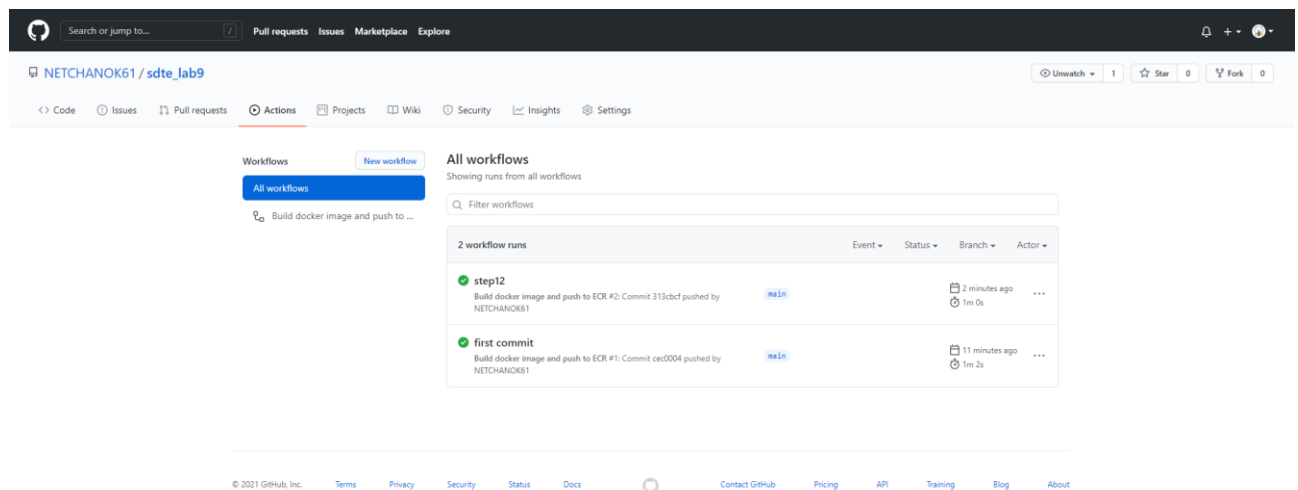

The 'Tasks' tab is selected, showing a list of tasks. The task status is 'Running' (stopped). The table below shows the details of the tasks:

Task	Task Definition	Last status	Desired status	Group	Launch type	Platform version
233d309ce67a47fb2599cf5a7...	lab9-task-4	RUNNING	RUNNING	service:lab9-service	FARGATE	1.4.0
63f6dc3a1eb64226b94cb9cce9...	lab9-task-4	RUNNING	RUNNING	service:lab9-service	FARGATE	1.4.0
a6f291b3faca445d96c782c3dce...	lab9-task-4	RUNNING	RUNNING	service:lab9-service	FARGATE	1.4.0

C. Capture Screen ผลลัพธ์ Step 10

D. Capture Screen ผลลัพธ์ Step 12

Lab 9 Done !!
